Product Information

Product Description:

TB520 PU Topcoat Binder High Gloss with 80% Binder - 20% Color Toner optional (70% Binder - 30% Color Toner on low opacity colors), TB520 is a two-component fast polyurethane topcoat with very good gloss and flow, especially developed for Industrial OEM and aftermarket repairs. TB520 has excellent air- and force-dry capabilities and provides very good UV protection. All Toners are chromate and lead free.

Preparation:

For more detailed information go-to TI-Substrate and Pre-treatment on Color Retrieval System (CRS) or website www.valsparindustrialmix.com/emea/en/.

Substrates:

Surfaces coated with Primers: FP400/401/440 Epoxy Primer, FP500/PB500/PB500-S PU Primer DTM, FP640 in combination with FP510/511 HS Surfacer. On Plastic parts use FP600 Plastic Primer (adhesion test recommended).

Other: Solvent resistant surfaces, cleaned/sanded/hardened original and cured coatings.

Dry sanding: P320 – P400 eccentrically machine

Note: Please, check and change abrasive paper regularly as required

Advice: We suggest using dry sanding by Orbital sander!

Wet sanding: P800 – P1000

Cleaning: Surface must be dry and free from any contamination, e.g., oil, grease, release agents, use AD690 Degreaser Solvent Based.
